

Northstar Operations Group - Vendor Onboarding SOP

Vendor Onboarding SOP

1. Purpose

The Vendor Onboarding SOP describes how Northstar evaluates and activates new vendors before work begins.

2. Intake Requirements

Requesters must submit a vendor intake form, business justification, estimated spend, vendor contact information, data access description, and contract or order form when available.

3. Standard Timeline

Standard vendor onboarding takes 10 business days after Procurement receives a complete intake package. Missing forms, incomplete data descriptions, or contract changes may extend the timeline.

4. Risk Review

Vendors that access confidential or restricted data require IT Security review. Vendors that process employee, customer, payroll, medical, credential, or regulated data may require additional privacy and Legal review. High-risk vendor reviews typically take 15 to 20 business days.

5. Approval And Activation

Only Procurement may activate a vendor record. Legal must review contracts before signature. Employees may not begin work with a vendor until onboarding is complete and the vendor is active in the procurement system.
